WORK EXPERIENCE

Flutter Developer

September 2019 - September 2022

Nipuna Prabidhik Sewa | Pokhara, Nepal

- Developed high-performance, cross-platform mobile applications for both Android and iOS, ensuring a consistent and seamless user experience across all devices.
- Implemented custom functionalities using Flutter's rich set of widgets and libraries, providing tailored solutions that met specific client needs and enhanced app usability.
- Wrote clean, maintainable, and industry-standard code, following best practices and ensuring the scalability and robustness of the applications.
- Optimized app performance by fine-tuning animations, reducing load times, and minimizing resource consumption, resulting in smoother and faster applications.
- Created intuitive and visually appealing user interfaces, leveraging Flutter's flexible design capabilities to deliver engaging and user-friendly apps.
- Worked closely with clients to understand their requirements, provided regular updates, and incorporated feedback, ensuring that the final product exceeded their expectations.
- Collaborated effectively with cross-functional teams, including designers, backend developers, and project managers, to deliver cohesive and successful projects.
- Stayed updated with the latest Flutter developments and trends, continuously improving skills and incorporating new techniques to enhance app quality and functionality.

Android Developer

September 2017 - June 2019

Websoft Technology Nepal Pvt. Ltd. | Pokhara, Nepal

- Built and maintained Android applications with optimized performance, delivering seamless and responsive user experiences.
- Developed and tested mobile apps using the Android SDK, implementing robust architecture for scalability and maintainability.
- Integrated Firebase for backend services, including real-time database, cloud messaging, and authentication to enhance app functionality.
- Enhanced app stability by conducting thorough debugging, issue tracking, and performance optimization, reducing crash rates.

- Designed user-centric interfaces following Material Design principles, ensuring intuitive and aesthetically pleasing designs.
- Implemented third-party libraries and APIs for advanced features such as location tracking, push notifications, and payment gateways.
- Collaborated with cross-functional teams, including UI/UX designers and QA testers, to deliver high-quality applications within deadlines.
- Conducted code reviews to maintain high standards of code quality and foster knowledge sharing among team members.
- Stayed updated with Android trends and technologies, adopting best practices to improve development efficiency and app quality.

WordPress Developer

January 2015 – June 2016

Everart Technology | Pokhara, Nepal

- Successfully implemented custom code to tailor WordPress functionalities to meet specific client requirements, enhancing user experience and site performance.
- Conducted thorough optimization of WordPress websites, significantly improving load times and overall performance, which led to increased user engagement and satisfaction.
- Applied effective SEO strategies, resulting in higher search engine rankings and increased organic traffic to client websites.
- Proficiently managed website installations, updates, and maintenance, ensuring robust and secure websites with minimal downtime.
- Worked collaboratively with design and marketing teams to integrate seamless user interfaces and enhance site aesthetics, contributing to cohesive project delivery.
- Consistently received positive feedback from clients for delivering high-quality, functional, and visually appealing websites that exceeded expectations.
- Actively participated in WordPress Meet Pokhara and WordCamp Pokhara, contributing to the community and staying updated with the latest trends and best practices in WordPress development.

PROJECTS

Pokhara Food Delivery

[View Website](#)

- Developed robust Android and iOS applications using the Flutter framework, ensuring a consistent and seamless user experience across both platforms.
- Successfully implemented APIs to facilitate real-time data exchange between the app and the backend servers, enabling features like live order tracking and dynamic menu updates.
- Adhered to industry-standard coding practices, writing clean, maintainable, and well-documented code to ensure the app's scalability and ease of future enhancements.

- Optimized the app's performance by fine-tuning animations, minimizing load times, and reducing resource consumption, resulting in a smoother user experience.
- Designed and developed an intuitive and visually appealing user interface, leveraging Flutter's flexible UI components to enhance user engagement and satisfaction.
- Implemented features such as push notifications, order history, and secure payment gateways, ensuring a seamless and secure user experience.
- Worked closely with the design and backend teams, incorporating feedback and iterating on features to meet client expectations and deliver a high-quality product.
- Conducted thorough testing and debugging to ensure the app's stability and reliability, leading to a successful deployment and positive user feedback.
